Leadership & **Innovation**
Foundation

ADVANCING GLOBAL HEALTH

Thought Leadership & **Innovation**
Foundation partners with entities ranging
from industry, academia, government, to
the non-profit community to explore new
approaches to health.

About TLI

WHAT WE DO

TLI is a 501(c)(3) nonprofit organization dedicated to developing, nurturing, and implementing innovative insights and strategies that positively impact individual, community, and population health, healthcare, resilience, and well-being.

Federal Healthcare

Innovation

Under-served Patient Populations

We Think

Asking the questions that matter and paying rigorous attention to key questions framed by diverse stakeholders and opinion makers.

Creating roadmaps to transformation for innovative solutions.

We Lead

Working toward better outcomes through innovation in strategy and practice.

Driving collaboration for innovation with both top down and bottom up strategies.

We Innovate

Finding the drivers of change in organizations and patient communities.

Creating prototyping programs to advance better patient outcomes.

Learn More About Our Work

Partner With Us

We engage with thought leaders in academia, the government, patient advocacy and industry. Through an innovative, collaborative approach, we develop programs to improve patient outcomes. This approach and strategic focus has transformed TLI into a valued partner of the Department of Defense, National Institutes of Health, the Mayo Clinic, APDS, Midwest Business Group on Health and the Veterans Administration among others.
