

# Amentum (company)

**Amentum Services, Inc.** (formally **Amentum Government Services Holding LLC**) is an American government and commercial services contractor based in Chantilly, Virginia.<sup>[4][5]</sup> The company was formed in 2020 from the spinout of AECOM's Management Services / federal group.<sup>[6]</sup> After Leidos, it is the second-largest government services (non equipment producing) contractor in the US government contracting market.<sup>[7]</sup>

## History

Amentum was founded in 2020 as a spinout of the Management Services Group of AECOM, consisting of the non-construction parts of the company's federal work as well as its commercial operations and maintenance business. This came as a result of a process by AECOM to realign its business to focus more clearly on the architect, engineering, and construction market.<sup>[8]</sup>

Amentum traces its AECOM roots back to several well-known government contracting firms that now form the basis of its current work. These firms came to be a part of the company by way of AECOM's acquisition of URS Corporation and include EG&G, Washington Group International, Westinghouse Government Services, and Lear Siegler.<sup>[9]</sup>

## Growth through acquisitions

As part of the strategy by its owners, Amentum has pursued acquisitions of other government contractors including:

- 2020 - DynCorp<sup>[10][11]</sup>
- 2022 - PAE<sup>[12]</sup>

## Notable Projects

- Training of all US Army helicopter pilots at Fort Rucker for the United States Army Aviation Center of Excellence<sup>[13]</sup>
- Various operations roles for nuclear remediation at the Savannah River Site and the Hanford Site<sup>[14]</sup>
- Operation of the Waste Isolation Pilot Plant - the US nuclear waste repository
